

Discover healthcare data in a way that has never before been possible

HealthVerity Marketplace, a self-service cloud solution, allows you to access and build patient and provider cohorts from more than 60 unique data sources. Start from scratch or enrich your current proprietary data with over 50 billion transactions for more than 330 million US patients.

- ✓ Browse and license data by diagnosis, drug, procedure lab test or biomarker
- ✓ Combine proprietary and third party data sources to build customized cohorts
- ✓ Link potential and existing patients to healthcare data and social determinants of health

Billions of medical transactions at your fingertips

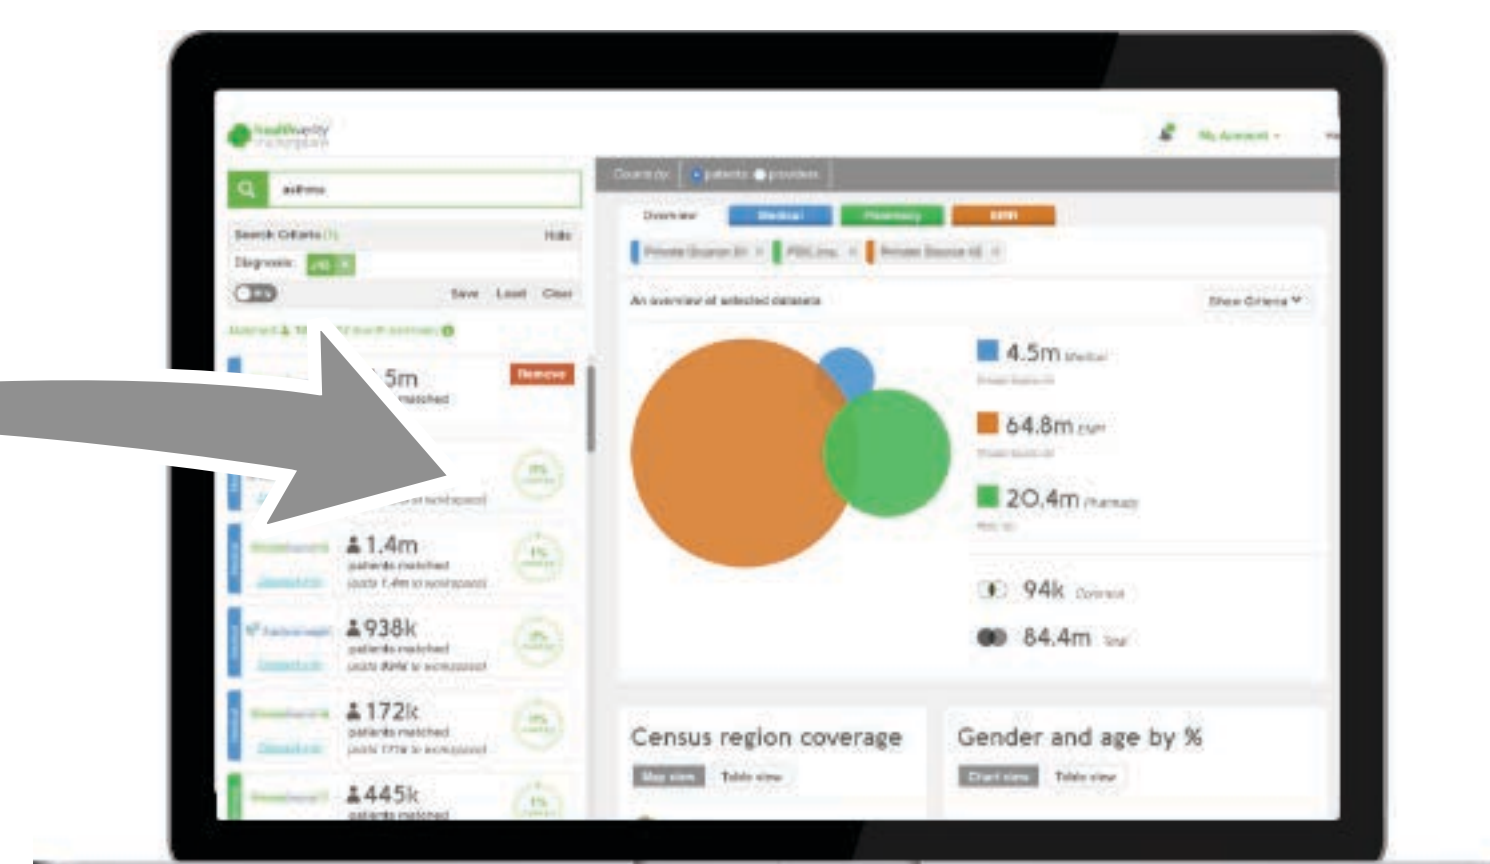

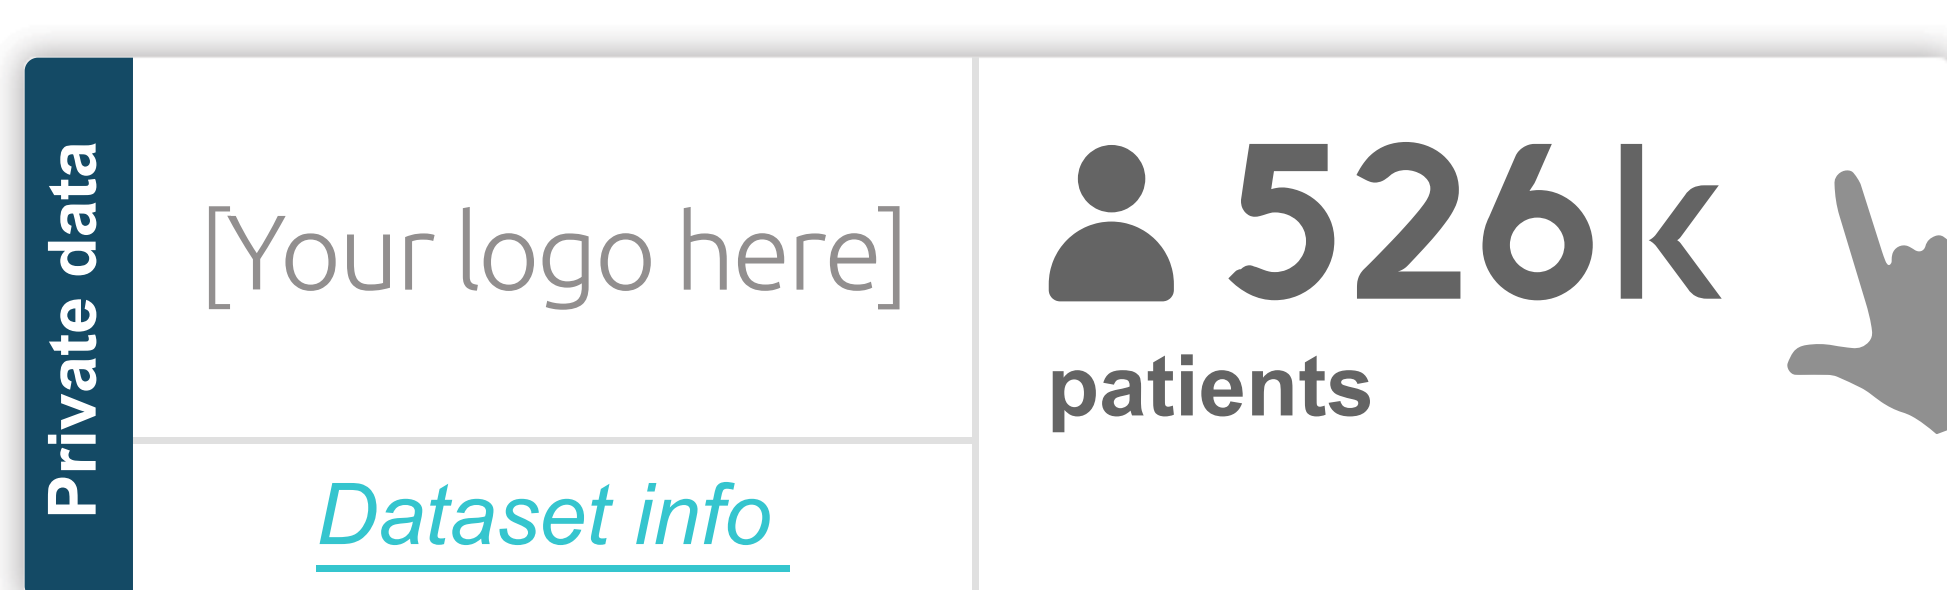

About HealthVerity

HealthVerity is transforming the way data-led organizations make critical decisions. Our technology platform serves as the foundation for the rapid creation, exchange, and management of healthcare and consumer data in a fully-interoperable, privacy-protecting manner. Advantaged by highly sophisticated identity resolution and matching capabilities, HealthVerity is on a mission to increase transparency, forge interoperability and activate deeper insights.

Leverage your enterprise data as a private tile

Instantly overlay that data you already have with the universe of HealthVerity Marketplace (330 million patients) to strengthen and enrich your asset. Multiple tiles can be created and accessed by individual teams or designations with your enterprise.
